INTRODUCTION

This coloring book is part of Edufrienz's collection of enrichment content designed to provide children with valuable coloring activities that promote positive growth.

The Doodle Frienz Coloring is an interactive coloring book designed to spark children's creativity and help them explore the fascinating world around them. As they color in the adorable Doodle Frienz characters, they will discover a variety of themes that celebrate diversity, basic learning concepts, nature, culture and community.

Each page includes engaging prompts and coloring activities that encourage them to think critically, express their imagination and develop a deeper understanding of the world. Through the power of art, they will explore important values such as kindness, respect and empathy.

When using this book in a school setting, we recommend that each child has their own copy. This allows for individual exploration and personalized learning experiences.
